

Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Monday 07 Jun 2021

++ Valid for broadcast between 0600 and 1800

Headline:

Heavy showers for some on Monday. Dry and clear overnight.

Today:

Some variable amounts of cloud on Monday, with sunny periods but a chance of residual showers in places, mainly over the western hills. Showers will become occasionally heavy during the afternoon, with thunder likely. Some coastal fog possible in Northumberland. Maximum temperature 21 deg C (70 deg F).

Tonight:

Showers soon fading, then dry and largely clear with some patchy low cloud over the western hills. Cool around dawn in rural areas, with a chance of mist in places. Minimum temperature 7 deg C (45 deg F).

Tuesday:

A warm and largely dry day on Tuesday, though becoming increasingly cloudy with a chance of patchy light rain for some in the afternoon, mainly in the west. Maximum temperature 22 deg C (72 deg F).

Outlook for Wednesday to Friday:

Remaining warm through this period. Cloudier than previous days, especially in the west, with the odd spot of rain at times, but some bright spells still likely in the east.
